1994 General Dentistry Index Volume 42

Author Index

Note: Numerals in parentheses refer to issue numbers; numerals following a colon refer to page numbers. A subject index follows this author index.

Abrahamsohn GM. Oversight, insight (response to letter). (3):202
Anderson NA see Barnes CM
Arcieri MF see Fugazzotto PA
Balfour HH, Jr. see Little JW
Barkmeir WW see Matranga LF
Barnes CM, Anderson NA, Li Y, Caufield PW. Effectiveness of steam sterilization in killing spores of *Bacillus stearothermophilus* in prophylaxis angles. (5):456-458
Bauer CG, Fasbinder DJ, Billy EJ. Porcelain veneer restorations: an option in removable partial denture design. (6):550-553
Bergman SA see Wynn RL
Berman MH. Praise for Rx today (letter). (1):13
Bergschneider JL. All in favor (letter). (1):13
Berry EA see Mangum FI, Jr.
Billy EJ see Bauer CG
Black RR see Schanzer RB
Blair HW. Finding the drive tube (letter). (5):392
Brokaw WC see Kaugars GE
Broome JC see Pruette RH
Brown RS, Johnson CD. Corrosion of dental gold restorations from inhalation of crack cocaine. (3):242-246
Caufield PW see Barnes CM
Chan JT see Tate WH
Chase RH. Unusual macrodontia. (3):216
Chiodo GT, Tolle SW. Informing patients of inadequate treatment: ethical dilemmas. (4):299-300
The role of values in patients' decision making. (2):120-121
The underside of medical insurance billing. (1):19-23
Therapeutic privilege and truth telling. (6):504-507
Clarke JH see Irish LE
Comer RW see Shrout MK
Commean VL. . . .And more on the compactor syndrome (letter). (4):296
Conference of the PGY-I Requirement. Anticipating the next oral health manpower crisis. (4):349-353
Convissar RA. Penetrating arguments (letter). (1):10
Curtis JW, Jr., Wilson JS, Helman JR. Dental rehabilitation through a mandibular removable partial denture with labial plate major connector. (6):556-558
Cushman BW see Throndson RR
Cutino SR. Vasovagal syncope associated with seizure activity. (4):342-343
Damm DD, Fantasia JE. Acute sore palate. (2):124, 185
Bilateral macrodontia. (1):30, 93
Pericoronal radiolucency. (6):527, 579
Progressive tooth loss. (1):30, 93
Radicular radiolucency. (6):527, 579
Unilateral acute sore mouth. (2):124, 185
Damm DD see Fantasia JE
Davis MW. Compactor syndrome (letter). (4):296
Davis RD see Macpherson JR
Decher L see Little JW
DeSchepper E see Mangum FI, Jr.
Drummond JJ see Fitchie JG
Dyer JK see Shaw DH
Eames WB. Something for almost everybody. (5):464-466
El-Bermani A-W see Kronman JH
Elliott RW, Jr., Seney JS, King GJ. Delivering coolant through the bur: a preliminary report. (6):536-540
Emert RL see Wakefield CW
Evans DB see Mesaros AJ, Jr.
Evans RL see Rice CD
Fantasia JE, Damm DD. Gingival erythema and ulceration. (5):404, 480
Inferior auricular skin lesion. (3):208, 280
Lingual ulceration. (4):302, 369
Multiple oral ulcerations. (5):404, 480
Primary maxillary central incisor anomaly. (4):302, 369
Yellowish nodule of the soft palate/tonsillar pillar region. (3):208, 280
Fantasia JE see Damm DD
Fasbinder DJ see Bauer CG
Feldman MC. Far-fetched advice? (letter). (1):20, 22
Felt GT. Ethics of charity (letter). (1):10
Filler SJ, Lazarchik DA. Tooth erosion: an unusual case. (6):568-569
Fiset L see Longley AJ
Fitchie JG, Puckett AD, Drummond JJ, Hines RB. Microleakage of 5 third-generation dentinal bonding systems. (1):54-57
Flecker CM, Jr. The right to health care: an inevitable collision. (3):256-257
Fugazzotto PA, Arcieri MF. Single-tooth replacement options with the IMZ implant. (5):435-438
Gann GR. Who's responsible? (response to letter). (3):200, 202
Garcia-Godoy F. Oversight, insight (response to letter). (3):202
Gatrell AB. Is there a problem? (5):394-396
George PT. Tired results of oral sleep devices (response to letter). (1):10-13
Gerhardt DE, Sydiskis RJ. Effect of internal disinfectants on selective microbe recovery from irreversible hydrocolloid. (6):564-566
Getz T see Longley AJ
Gilbert MB. Managed or mismanaged care? (letter). (3):202, 204
Ginsburg GM see Irish LE
Glazer HS see Margolin RE
Gragg PP. Which is it? (letter). (2):114
Gray SE see Macpherson JR
Harrell JA, Sr. Students for life (letter). (1):13
Hashimoto K see Thunthy KH
Hayden WJ see Rice CD
Hecht RC see Shelley JJ
Helman JR see Curtis JW, Jr.
Herschaft EE see Nuckles DB
Hines RB see Fitchie JG
Hiranuma K see Ishigami T
Holland TL. All in this together (letter). (2):112
Howard WW. Don't mask communication with patients (editorial). (3):198
Dreaming and planning (editorial). (2):110

Myths and rote procedures (editorial). (5):390
Rooting out guilt and anxiety (editorial). (1):6
Treating patients who are hard to like (editorial). (4):294
Two-tiered allowances by third-party carriers (editorial). (6):494

A

Academy of General Dentistry
1994-1995 Councils & Committees. (5):488
Directory. (1):102; (2):190; (3):286; (4):371; (5):487; (6):590
Fast track to the future (AGD annual meeting coverage). Martin EJ. (6):516-524

Academy of General Dentistry, Foundation
AGD's first implant symposium among programs funded by Foundation. (3):287-288

Academy of General Dentistry, journal
Editor Howard wins another Gies award. (6):496
Instructions for authors. (2):191-192; (4):383-384; (6):591-592
1993 Reviewers list. (1):99-100

Acyclovir
Current therapeutic management of recurrent herpes labialis. Poland JM. (1):46-50

Adverse reactions
Adverse reaction to ibuprofen overdose. Shelley JJ, et al. (5):414-416
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL.

(2):116-117
Aerosol, bacterial
Airborne contamination produced by electrosurgery. Shaw DH, et al. (4):359-361
AIDS
Deadly innocence (book review). Horowitz LG. (4):379
HIV infection and necrotizing stomatitis. Muzyka BC, Glick M. (1):66-68
Allergy
Fear can mimic latex allergy in patients with dental phobia. Longley AJ, et al. (3):226-240
Alveolar osteitis
Nothing in the socket (letter). Williams TF. (4):298
Something for almost everybody. Eames WB. (5):464-466
Amalgam
Patient- or physician-initiated amalgam removal for treatment of arthritis. Tanchyk AP. (4):354-358
Something for almost everybody. Eames WB. (5):464-466
Analgesics
Adverse reaction to ibuprofen overdose. Shelley JJ, et al. (5):414-416
Anatomy
Anatomy and anesthesia of the mandibular nerve (software review). Demirjian A. (6):582-583
C-shaped root canal systems: diagnosis, treatment and restoration. Jerome CE. (5):424-427
The apex: how critical is it? Simon JHS. (4):330-334
Unusual macrodontia. Chase RH. (3):216
Anesthesia
Anatomy and anesthesia of the mandibular nerve (software review). Demirjian A. (6):582-583
Clinical evaluation of an electronic anesthesia system. Matranga LF, et al. (1):34-38
Efficacy of electronic dental anesthesia during routine dental operative procedures. Schanzer RB, Black RR. (2):172-177
Anesthesia, local
Advanced techniques of local anesthetic injection. Reed KL. (3):248-251
Long and short of it (letter). Reed KL. (4):298
Preferred needle lengths for inferior alveolar anesthesia. Kronman JH, et al. (1):74-76
Something for almost everybody. Eames WB. (5):464-466
The anesthetic test: a diagnostic aid for referred pain. Schmidt JC, Wong M. (4):338-340
Vasovagal syncope associated with seizure activity. Cutino SR. (4):342-343
Antibiotics
Antibiotics and their use in the treatment of orofacial infections. I. Wynn RL, Bergman SA. (5):398-402; II. (6):498-502
Ludwig's angina. Owens BM, Schuman MJ. (1):84-87
Precautions in dental treatment of patients with mitral valve prolapse. Rice CD, et al. (1):77-78
The role of antimicrobials in treatment of periodontal diseases. Palcanis KG. (2):130-136
Antidepressants, tricyclic
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Anxiety
. . .And more on the compactor syndrome (letter). Commean VL. (4):296
Basic dental-anxiety management. Irish LE, et al. (3):252-255
Compactor syndrome (letter). Davis MW. (4):296
Hypnotherapy for treatment of dental phobia in children. Rustvold SR. (4):346-348
Rooting out guilt and anxiety (editorial). Howard WW. (1):6
Apnea
Tired results of oral sleep devices (letter). Lockerman LZ. (1):10; (response to letter). George PT. (1):10, 13
Appliance, maxillary anterior
An alternative technique for fabricating the maxillary anterior passive appliance. Zentz RR. (4):336-337
Arrhythmia
Screening dentists for risk factors associated with cardiovascular disease. Simmons MS, et al. (5):440-445
Arthritis
Patient- or physician-initiated amalgam removal for treatment of arthritis. Tanchyk AP. (4):354-358
Asepsis
Airborne contamination produced by electrosurgery. Shaw DH, et al. (4):359-361
Aspirin
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117

B

Bacteremia
Airborne contamination produced by electrosurgery. Shaw DH, et al. (4):359-361
Barrier technique
Effectiveness of radiographic film barrier envelopes. Hubar JS, et al. (5):406-408
Human herpesviruses: research, and threats to health professionals. Robbins DL. (5):418-422
Behçet's syndrome
Multiple oral ulcerations. Fantasia JE, Damm DD. (5):404, 480
Biofeedback
Basic dental-anxiety management. Irish LE, et al. (3):252-255
Biofilm
Microbial contamination of dental unit waterlines: short- and long-term effects of flushing. Santiago JI, et al. (6):528-535
Bite marks
Forensic odontology in solving crimes: dental techniques and bite-mark evidence. Nuckles DB, et al. (3):210-214
Bonding, dentin
Microleakage of 5 third-generation dentinal bonding systems. Fitchie JG, et al. (1):54-57

C

Calcium hydroxide
Well-kept secret (letter). Manhart MJ. (1):14
Cannula see Needle, injection
Carbamazepine
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Carbamide peroxide
Bleaching with 10 percent carbamide peroxide: an 18-month study. Small BW. (2):142-146
Carcinoma, squamous cell
Lingual ulceration. Fantasia JE, Damm DD. (4):302, 369
Radicular radiolucency. Damm DD, Fantasia JE. (6):537,679
Cardiac disease
Precautions in dental treatment

of patients with mitral valve prolapse. Rice CD, et al. (1):77-78
Cardiovascular disease
Epinephrine interactions with beta-blockers. Wynn RL. (1):16-18
Screening dentists for risk factors associated with cardiovascular disease. Simmons MS, et al. (5):440-445
Caries
Radiographically detected Class I carious lesions in clinically sound teeth. Kaugars GE, et al. (3):268-269
Caries prevention
Fluoride concentration in bottled and filtered waters. Tate WH, Chan JT. (4):362-366
New fluoride dosage schedule (letter). Levy SM. (6):496
Cheilitis granulomatosa
The big lip: diagnosis and treatment considerations. Miele FA, Jr. (3):258-259
Cement, dental
Microleakage in heat-treated Class V resin inlays cemented with five cement systems: an in vitro study. Macpherson JR, et al. (4):330-336
Ceramics
Self-assessment quiz No. 77. Ceramics. (6):570-574
Child abuse
Church and state (letter). Morehead BJ. (2):114
Detecting and reporting child maltreatment—dentists' obligations. Jessee SA. (3):218-221
Forensic odontology in solving crimes: dental techniques and bite-mark evidence. Nuckles DB, et al. (3):210-214
Chlorhexidine
The role of antimicrobials in treatment of periodontal diseases. Palcanis KG. (2):130-136
Clindamycin
Antibiotics and their use in the treatment of orofacial infections. II. Wynn RL, Bergman SA. (6):498-502
Cocaine
Corrosion of dental gold restorations from inhalation of "crack" cocaine. Brown RS, Johnson CD. (3):242-246
Communication
Correct grammar—medical edition (software review). (3):282-283
Electronic media. Dorland's electronic medical speller (software review). (1):97
Composite see Resin, dental
Conduct, professional see Professional conduct
Corrections
Oversight, insight (letter). Koritzer RT. (3):202; (response to letter). Abrahamson GM. (3):202; Garcia-Godoy F. (3):202
Coumadins
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Cyst, epidermal
Inferior auricular skin lesion. Fantasia JF, Damm DD. (3):209, 290
Cyst, lymphoepithelial
Yellowish nodule of the soft palate/tonsillar pillar region. Fantasia JF, Damm DD. (3):209, 290

D

Decision making
Decision making in dental treatment planning (book review). Hall WB, et al. (6):581
Dreaming and planning (editorial). Howard WW. (2):110
Dental care
Managed or mismanaged care (letter). Gilbert MB. (3):202-204
Two-tiered allowances by third-party carriers (editorial). Howard WW. (6):494
Dental education
Rooting out guilt and anxiety (editorial). Howard WW. (1):6
Spring cleaning (letter). Pressner S. (3):204
Dental education, continuing
National sponsors to offer CE for fellowship/mastership credit. (4):372-375
Students for life (letter). Harrell JA, Sr. (1):13
Dental education, postgraduate
Anticipating the next oral health manpower crisis. Conference on the PGY-I Requirement. (4):349-353
Dental equipment
Clinical evaluation of an electronic anesthesia system. Matranga LF, et al. (1):34-38
Delivering coolant through the bur: a preliminary report. Elliot RW, Jr., et al. (6):536-540
Effectiveness of radiographic film barrier envelopes. Hubar JS, et al. (5):406-408
Effectiveness of steam sterilization on killing spores of *Bacillus stearothermophilus* in prophylaxis angles. Barnes CM, et al. (5):456-458
Efficacy of electronic dental anesthesia during routine dental operative procedures. Schanzer RB, Black RR. (2):172-177
Finding the drive tube (letter). Blair HW. (5):392
Microbial contamination of dental unit waterlines: short- and long-term effects of flushing. Santiago JI, et al. (6):528-535
Microleakage evaluation of a thermal endodontic condensation method. Pruette RH, et al. (2):156-158
Stability of thermoplastic custom impression trays. Lambert RE. (5):460-462
Sterilizer monitoring: option or responsibility? Lado EA, Stout FW. (6):560-563
Dental impressions
Effect of internal disinfectants on selective microbe recovery from irreversible hydrocolloid. Gerhardt DE, Sydiskis RJ. (6):564-566
Stability of thermoplastic custom impression trays. Lambert RE. (5):460-462
Dental instruments
A review of methods and instrumentation for removing crowns and bridges from prepared teeth. Pruitt CO. (4):320-326.
Delivering coolant through the bur: a preliminary report. Elliot RW, Jr., et al. (6):536-540
Restoration of facial defects by the prosthodontist. Ishigami T, et al. (5):451-455
Dental insurance see Insurance, dental
Dental laboratory
Practical infection control in dental laboratories. Plummer KD, Wakefield CW. (6):545-548
Dental laboratory relations
All in this together (letter). Holland TL. (2):112
Dental laboratory owners' perspectives: factors in selection and termination of business relationships. Rhoads B. (1):24-29
Factors in selection and termination of business relationships,

part II. Dentists' perspectives. Rhoads B. (3):206-207
Is there a problem? Gatrell AB. (5):394-396
Who's responsible? (letter). Rogers BN. (3):200; (response to letter). Gann GR. (3):200, 202
Dental manpower
Anticipating the next oral health manpower crisis. Conference on the PGY-I Requirement. (4):349-353
Dental materials
Accuracy of density reproduction in duplicated radiographs. Thunthy KH, et al. (2):166-171
All in favor... (letter). Bergschneider JL. (1):13
An alternative technique for fabricating the maxillary anterior passive appliance. Zentz RR. (4):336-337
Corrosion of dental gold restorations from inhalation of "crack" cocaine. Brown RS, Johnson CD. (3):242-246
Effect of internal disinfectants on selective microbe recovery from irreversible hydrocolloid. Gerhardt DE, Sydiskis RJ. (6):564-566
Glass ionomer cements—the materials and their clinical use (book review). Katsuyama S, et al. (5)483-484
Restoration of facial defects by the prosthodontist. Ishigami T, et al. (5):451-455
Stability of thermoplastic custom impression trays. Lambert RE. (5):460-462
Use of rectified turpentine oil to soften gutta-percha. Kaplowitz GJ. (1):83
Dental practice
Myths and rote procedures (editorial). Howard WW. (5):390
Two-tiered allowances by third party carriers (editorial). Howard WW. (6):494
Dentin
Microleakage of 5 third-generation dentinal bonding systems. Fitchie JG, et al. (1):54-57
Dentist-patient relationship
Don't mask communication with patients (editorial). Howard WW. (3):198
Informing patients of inadequate treatment: ethical dilemmas. Chiodo GT, Tolle SW. (4):299-300
Therapeutic privilege and truth telling. Chiodo GT, Tolle SW. (6):504-507
Treating patients who are hard to like (editorial). Howard WW. (4):294
Dentistry
Dentists' age and manual dexterity. Are younger or older dentists better practitioners? Neiburger EJ. (1):88-90
Screening dentists for risk factors associated with cardiovascular disease. Simmons MS, et al. (5):440-445
Dentures, partial, fixed
A review of methods and instrumentation for removing crowns and bridges from prepared teeth. Pruitt CO. (4):320-326.
Denture, partial, removable
Dental rehabilitation through a mandibular removable partial denture with labial plate major connector. Curtis JW, Jr., et al. (6):556-558
Porcelain veneer restorations: an option in removable partial denture design. Bauer CG, et al. (6):550-553
Diagnosis
Acute sore palate. Damm DD, Fantasia JF. (2):124, 185
Bilateral macrodontia. Damm DD, Fantasia JE. (1):30, 93
Drug-induced gingival hyperplasia. Margolin RE, et al. (4):344-345
Gingival erythema and ulceration. Fantasia JF, Damm DD. (5):404, 480
Inferior auricular skin lesion. Fantasia JF, Damm DD. (3):209, 290
Lingual ulceration. Fantasia JE, Damm DD. (4):302, 369
Multiple oral ulcerations. Fantasia JE, Damm DD. (5):404, 480
Pericoronal radiolucency. Damm DD, Fantasia JE. (6):537,679
Prevalence of oral lesions in symptomatic and asymptomatic HIV patients. Little JW, et al. (5):446-450
Primary maxillary central incisor anomaly. Fantasia JE, Damm DD. (4):302, 369
Progressive tooth loss. Damm DD, Fantasia JE. (1):30, 93
Radicular radiolucency. Damm DD, Fantasia JE. (6):537,679
The anesthetic test: a diagnostic aid for referred pain. Schmidt JC, Wong M. (4):338-340
The big lip: diagnosis and treatment considerations. Miele FA, Jr. (3):258-259
Unilateral acute sore mouth. Damm DD, Fantasia JF. (2):124, 185
Uremic stomatitis associated with undiagnosed renal failure. Ross WF III, Salisbury PI III. (5):410-412
Yellowish nodule of the soft palate/tonsillar pillar region. Fantasia JF, Damm DD. (3):209, 290
Disease prevention
Precautions in dental treatment of patients with mitral valve prolapse. Rice CD, et al. (1):77-78
Tobacco use strikes out (letter). Mecklenburg R. (1):14
Disinfection
Effect of internal disinfectants on selective microbe recovery from irreversible hydrocolloid. Gerhardt DE, Sydiskis RJ. (6):564-566
Drug abuse
Corrosion of dental gold restorations from inhalation of "crack" cocaine. Brown RS, Johnson CD. (3):242-246
Drug interactions
Epinephrine interactions with beta-blockers. Wynn RL. (1):16-18
Dysplasia, cemental
Periapical cemental dysplasia simulating endodontic failure. Koehler GW. (2):162-163

E

Education, continuing dental see Dental education, continuing
Education, dental see Dental education
Electrosurgery
Airborne contamination produced by electrosurgery. Shaw DH, et al. (4):359-361
Basic electrosurgery (book review). Lansky I. (3):281
Self-assessment quiz No. 76. Electrosurgery. (5):468-472
Emergency, dental
Vasovagal syncope associated with seizure activity. Cutino SR. (4):342-343
Emergency, medical
Managing medical emergencies in the dental office (video review). Malamed SJ. (6):580
Enamel erosion

Progressive tooth loss. Damm DD, Fantasia JE. (1):30, 93
Endodontics
C-shaped root canal systems: diagnosis, treatment, and restoration. Jerome CE. (5):424-427
Glutaraldehyde: an alternative to formocresol? Wolff GK. (3):260-263
Microleakage evaluation of a thermal endodontic condensation method. Pruette RH, et al. (2):156-158
Periapical cemental dysplasia simulating endodontic failure. Koehler GW. (2):162-163
Proportional length determination: mathematical method. Pink FE, Sachs E. (5):428-431
Simultaneous apical and cervical idiopathic external root resorption. Mesaros AJ, Jr., Wayman BE. (1):70-73
The apex: how critical is it? Simon JHS. (4):330-334.
Use of rectified turpentine oil to soften gutta-percha. Kaplowitz GJ. (1):83
Well-kept secret (letter). Manhart MJ. (1):14
Epinephrine
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Epinephrine interactions with beta-blockers. Wynn RL. (1):16-18
Erosion see Tooth erosion
Erythromycin
Antibiotics and their use in the treatment of orofacial infections. II. Wynn RL, Bergman SA. (6):498-502
Ethics
Church and state (letter). Morehead BJ. (2):114
Dental ethics (book review). Weinstein BD. (4):379
Ethical questions in dentistry (book review). Rule JT, Veatch RM. (1):96
Ethics of charity (letter). Felt GT. (1):10
Far-fetched advice (letter). Feldman MC. (1):20-22
Informing patients of inadequate treatment: ethical dilemmas. Chiodo GT, Tolle SW. (4):299-300
More harm than good (letter). Perno JL. (1):19-20
Myths and rote procedures (editorial). Howard WW. (5):390
Quality service is the bottom line (letter). Thorpe JD. (1):20
Setting the record straight (letter). Weisenfeld MD. (1):19-23
Therapeutic privilege and truth telling. Chiodo GT, Tolle SW. (6):504-507
The role of values in patients' decision making. Chiodo GT, Tolle SW. (2):120-121
The underside of medical insurance billing. Chiodo GT, Tolle SW. (1):19-23

F

Facioplasty
Epinephrine interactions with beta-blockers. Wynn RL. (1):16-18
Restoration of facial defects by the prosthodontist. Ishigami T, et al. (5):451-455
Fear
Fear can mimic latex allergy in patients with dental phobia. Longley AJ, et al. (3):226-240
Film, radiographic
Effectiveness of radiographic film barrier envelopes. Hubar JS, et al. (5):406-408
Fluoride
Fluoride concentration in bottled and filtered waters. Tate WH, Chan JT. (4):362-366
New fluoride dosage schedule (letter). Levy SM. (6):496
Forensic dentistry
Forensic odontology in solving crimes: dental techniques and bite-mark evidence. Nuckles DB, et al. (3):210-214
Detecting and reporting child maltreatment—dentists' obligations. Jessee SA. (3):218-221
Self-assessment quiz No. 73. Forensic dentistry. (2):178, 183-185
Formocresol
Glutaraldehyde: an alternative to formocresol? Wolff GK. (3):260-263

G

Gies, William J.
William John Gies: His contributions to the advancement of dentistry (book review). Orland FJ. (1):96
Gingivitis
The role of antimicrobials in treatment of periodontal diseases. Palcanis KG. (2):130-136
Glutaraldehyde
Glutaraldehyde: an alternative to formocresol? Wolff GK. (3):260-263
How safe is glutaraldehyde? (letter). Neiburger EJ. (5):392
Gutta-percha
Use of rectified turpentine oil to soften gutta-percha. Kaplowitz GJ. (1):83

H

Health care
The right to health care: an inevitable collision. Flecker CA, Jr. (3):256-257
Health screening
Prevalence of oral lesions in symptomatic and asymptomatic HIV patients. Little JW, et al. (5):446-450
Screening dentists for risk factors associated with cardiovascular disease. Simmons MS, et al. (5):440-445
Herpangina
Acute sore palate. Damm DD, Fantasia JF. (2):124, 185
Herpesvirus
Human herpesviruses: research, and threats to health professionals. Robbins DL. (5):418-422
Herpes labialis
Clinical effectiveness of lysine in treating recurrent aphthous ulcers and herpes labialis. Wright EF. (1):40-42
Current therapeutic management of recurrent herpes labialis. Poland JM. (1):46-50
Herpes zoster
Unilateral acute sore mouth. Damm DD, Fantasia JF. (2):124, 185
Human immunodeficiency virus
HIV infection and necrotizing stomatitis. Muzyka BC, Glick M. (1):66-68
Prevalence of oral lesions in symptomatic and asymptomatic HIV patients. Little JW, et al. (5):446-450
Hyperplasia, gingival
Drug-induced gingival hyperplasia. Margolin RE, et al. (4):344-345
Hyperplasia, osseous
Subpontic osseous hyperplasia. Mesaros AJ, Jr., Evans DB. (3):264-266
Hypnosis

Hypnotherapy for treatment of dental phobia in children. Rustvold SR. (4):346-348

I

Ibuprofen
Adverse reaction to ibuprofen overdose. Shelley JJ, et al. (5):414-416
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Idoxuridine
Current therapeutic management of recurrent herpes labialis. Poland JM. (1):46-50
Immunology
Immunology in general dentistry: basics and clinical implications. Wakefield CW, Emert RL. (3):226-232
Implants
Atlas of oral implantology (book review). Cranin AN. (5):483-484
Dental implantology: AGD symposium affirms GP role. Lyons T. (6):508-514
Dental implants: are they for me? (book review). Taylor TD, Laney WR. (2):180
I.T.I. dental implants: planning, placement, restoration and maintenance (book review). Wilson TG, Jr. (5):481
Osseointegrated implant—a manual (book review). (6):582
Self-assessment Quiz No. 72. Implants. (1):92-95
Single-tooth replacement options with the IMZ implant. Fugazzotto PA, Arcieri MF. (5):435-438
The IMZ Implant System. Kirsch A, Ackerman KL. (5):484
Infection
Oral and maxillofacial infections, ed. 3 (book review). Topazian RG, Goldberg MH. (6):583
Infection control
Antibiotics and their use in the treatment of orofacial infections. I. Wynn RL, Bergman SA. (5):398-402; II. (6):498-502
Don't mask communication with patients (editorial). Howard WW. (3):198
Effect of internal disinfectants on selective microbe recovery from irreversible hydrocolloid. Gerhardt DE, Sydiskis RJ. (6):564-566
Effectiveness of radiographic film barrier envelopes. Hubar JS, et al. (5):406-408
Effectiveness of steam sterilization on killing spores of *Bacillus stearothermophilus* in prophylaxis angles. Barnes CM, et al. (5):456-458
Fear can mimic latex allergy in patients with dental phobia. Longley AJ, et al. (3):226-240
Finding the drive tube (letter). Blair HW. (5):392
How safe is glutaraldehyde? (letter). Neiburger EJ. (5):392
Human herpesvirus: research and threats to health professionals. Robbins DL. (5):418-422
Microbial contamination of dental unit waterlines: short- and long-term effects of flushing. Santiago JI, et al. (6):528-535
Practical infection control in dental laboratories. Plummer KD, Wakefield CW. (6):545-548
Sterile but safe (letter). Neiburger EJ. (2):112; (response to letter). Lewis DL. (2):112-114
Sterilizer monitoring: option or responsibility? Lado EA, Stout FW. (6):560-563
Inflammation
Immunology in general dentistry: basics and clinical implications. Wakefield CW, Emert RL. (3):226-232
Informed consent
Therapeutic privilege and truth telling. Chiodo GT, Tolle SW. (6):504-507
Insurance, dental
Follow-up on medical insurance billing (letter). Mack A. (2):112
The underside of medical insurance billing. Chiodo GT, Tolle SW. (1):19-23
Two-tiered allowances by third-party carriers (editorial). Howard WW. (6):494

K

Ketoconazole
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Ketolac
Just the right dose (letter). Lewis RH. (1):14

L

Lasers
Penetrating arguments (letter). Convissar RA. (1):10
Latex
Fear can mimic latex allergy in patients with dental phobia. Longley AJ, et al. (3):226-240
Lip
Prevalence of oral lesions in symptomatic and asymptomatic HIV patients. Little JW, et al. (5):446-450
The big lip: diagnosis and treatment considerations. Miele FA, Jr. (3):258-259
Lithium
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Ludwig's angina
Ludwig's angina. Owens BM, Schuman MJ. (1):84-87
Lysine
Clinical effectiveness of lysine in treating recurrent aphthous ulcers and herpes labialis. Wright EF. (1):40-42

M

Macrodontia
Bilateral macrodontia. Damm DD, Fantasia JE. (1):30, 93
Unusual macrodontia. Chase RH. (3):216
Microleakage
Microleakage evaluation of a thermal endodontic condensation method. Pruette RH, et al. (2):156-158
Microleakage in heat-treated Class V resin inlays cemented with five cement systems: an in vitro study. Macpherson JR, et al. (4):330-336
Microleakage of incremental versus compression matrix bulk filling of cervical resin composite restorations. Mangum FI, Jr., et al. (4):304-308

N

Needle, injection
Long and short of it (letter). Reed KL. (4):298
Preferred needle lengths for inferior alveolar anesthesia. Kronman JH, et al. (1):74-76
Nerve, inferior alveolar
Preferred needle lengths for inferior alveolar anesthesia. Kronman JH, et al. (1):74-76

O

Odontoma
Simultaneous apical and cervical idiopathic external root resorption. Mesaros AJ, Jr., Wayman BE. (1):70-73

Operative dentistry
A review of methods and instrumentation for removing crowns and bridges from prepared teeth. Pruitt CO. (4):320-326.
A simple pain-free adhesive restorative system by minimal reduction and tooth etching (book review). Fusayama T. (4):378-379
Back to the basics (letter). Smith CR. (1):13-14
Corrosion of dental gold restorations from inhalation of "crack" cocaine. Brown RS, Johnson CD. (3):242-246
Delivering coolant through the bur: a preliminary report. Elliot RW, Jr., et al. (6):536-540
Efficacy of electronic dental anesthesia during routine dental operative procedures. Schanzer RB, Black RR. (2):172-177
Microleakage in heat-treated Class V resin inlays cemented with five cement systems: an in vitro study. Macpherson JR, et al. (4):330-336
Microleakage of 5 third-generation dentinal bonding systems. Fitchie JG, et al. (1):54-57
Microleakage of incremental versus compression matrix bulk filling of cervical resin composite restorations. Mangum FL, Jr., et al. (4):304-308
Porcelain veneer restorations: an option in removable partial denture design. Bauer CG, et al. (6):550-553
Patient- or physician-initiated amalgam removal for treatment of arthritis. Tanchyk AP. (4):354-358
Tooth erosion: an unusual case. Filler SJ, Lazarchik DA. (6):568-569
Tooth-shade shift after rubber dam isolation. Passon C, Lambert R. (2):148-152

O

Oral health
Dental services and oral health: United States, 1989 (book review). Bloom B, et al. (2):180-182

Oral hygiene
Answer to toothbrushing (letter). Li TCT. (4):296

Oral surgery
Pain and paresthesia secondary to loose Kirschner wires. Throndson RR, Cushman BW. (6):554-555

Orthodontics
Atlas of orthodontics. Principles and applications (book review). Viazis AD. (2):182
Midline diastema correction with use of apically directed forces. Johnson BE. (2):159-161
Tooth movement through directed tongue and lip pressure. Keim RG. (1):61-64

P

Pain
Pain and paresthesia secondary to loose Kirschner wires. Throndson RR, Cushman BW. (6):554-555
The anesthetic test: a diagnostic aid for referred pain. Schmidt JC, Wong M. (4):338-340

Pain control
Clinical evaluation of an electronic anesthesia system. Matranga LF, et al. (1):34-38
Just the right dose (letter). Lewis RH. (1):14

Pain, myofacial
An alternative technique for fabricating the maxillary anterior passive appliance. Zentz RR. (4):336-337
Pain and paresthesia secondary to loose Kirschner wires. Throndson RR, Cushman BW. (6):554-555

Paresthesia
Pain and paresthesia secondary to loose Kirschner wires. Throndson RR, Cushman BW. (6):554-555

Pathology
Acute sore palate. Damm DD, Fantasia JF. (2):124, 185
Atlas of diseases of the oral mucosa, ed. 5 (book review). Pindborg JJ. (1):96-97
Current therapeutic management of recurrent herpes labialis. Poland JM. (1):46-50
Diseases of the oral mucosa. A color atlas, ed. 2 (book review). Strassburg M, Knolle G. (5):483
Gingival erythema and ulceration. Fantasia JF, Damm DD. (5):404, 480
HIV infection and necrotizing stomatitis. Muzyka BC, Glick M. (1):66-68
Inferior auricular skin lesion. Fantasia JF, Damm DD. (3):209, 290
Lingual ulceration. Fantasia JE, Damm DD. (4):302, 369
Ludwig's angina. Owens BM, Schuman MJ. (1):84-87
Multiple oral ulcerations. Fantasia JE, Damm DD. (5):404, 480
Periapical cemental dysplasia simulating endodontic failure. Koehler GW. (2):162-163
Pericoronal radiolucency. Damm DD, Fantasia JE. (6):537, 679
Prevalence of oral lesions in symptomatic and asymptomatic HIV patients. Little JW, et al. (5):446-450
Primary maxillary central incisor anomaly. Fantasia JE, Damm DD. (4):302, 369
Progressive tooth loss. Damm DD, Fantasia JE. (1):30, 93
Radicular radiolucency. Damm DD, Fantasia JE. (6):537, 679
Simultaneous apical and cervical idiopathic external root resorption. Mesaros AJ, Jr., Wayman BE. (1):70-73
Subpontic osseous hyperplasia. Mesaros AJ, Jr., Evans DB. (3):264-266
The big lip: Diagnosis and treatment considerations. Miele FA, Jr. (3):258-259
Unilateral acute sore mouth. Damm DD, Fantasia JF. (2):124, 185
Uremic stomatitis associated with undiagnosed renal failure. Ross WF III, Salisbury PI III. (5):410-412
Yellowish nodule of the soft palate/tonsillar-pillar region. Fantasia JF, Damm DD. (3):209, 290

Patient care
Coordination of patient care and consultation between the dentist and physician. Valenza JA. (1):79-82

Detecting and reporting child maltreatment—dentists' obligations. Jessee SA [article and exercise No. 22]. (3):218-224
Immunology in general dentistry: basics and clinical implications. Wakefield CW, Emert RL [article and exercise No. 23]. (3):226-234
Microbial contamination of dental unit waterlines: short- and long-term effects of flushing. Santiago JI, et al. [article (first of two) and exercise No. 27]. (6):528-535, 541-542
Microleakage in heat-treated Class V resin inlays cemented with five cement systems: an in vivo study. Macpherson JR, et al. [article (second of two) and exercise No. 24]. (4):310-318
Microleakage of 5 third-generation dentin bonding systems. Fitchie JG, et al. [article and exercise No. 19.] (1):54-57, 59-60
Microleakage of incremental versus compression matrix bulk filling of cervical resin composite restorations. Mangum FI, Jr., et al. [article (first of two) and exercise No. 24]. (4):304-308, 317-318.
Proportional length determination: mathematical method. Pink FE, Sachs E [article (second of two) and exercise No. 26]. (5):428-434
The role of antimicrobials in treatment of periodontal diseases. Palcanis KG [article and exercise No. 20]. (2):130-137, 139-140
Tooth-shade shift after rubber dam isolation. Passon C, Lambert R [article (second of two) and exercise No. 21]. (2):148-154
Self-instruction program, answers
Exercise No. 13. (1):91
Exercise No. 14. (1):91
Exercise No. 15. (2):186
Exercise No. 16. (2):187
Exercise No. 17. (2):187
Exercise No. 18. (3):274
Exercise No. 19. (3):274
Exercise No. 20. (4):370
Exercise No. 21. (4):370
Exercise No. 22. (5):474
Exercise No. 23. (5):474
Exercise No. 24. (6):578
Exercise No. 25. (6):578
Sterilization
Effectiveness of steam sterilization in killing spores of *Baccillus stearothermophilus* in prophylaxis angles. Barnes CM, et al. (5):456-458
Sterilizer monitoring: option or responsibility? Lado EA, Stout FW. (6):560-563
Which is it? (letter). Gragg PP. (2):114
Stomatitis
HIV infection and necrotizing stomatitis. Muzyka BC, Glick M. (1):66-68

Uremic stomatitis associated with undiagnosed renal failure. Ross WF III, Salisbury PI III. (5):410-412
Syncope
Vasovagal syncope associated with seizure activity. Cutino SR. (4):342-343

T

Talon cusp
Primary maxillary central incisor anomaly. Fantasia JE, Damm DD. (4):302, 369
Temporomandibular joint
An alternative technique for fabricating the maxillary anterior passive appliance. Zentz RR. (4):336-337
Diagnosis of the temporomandibular joint (book review). Katzberg RW, Westesson P-L. (3):282
Preventing temporomandibular joint (TMJ) and odontostomatognathic system (OSGS) injuries in dental practice (book review). Abdel-Fattah RA. (4):377-378
Something for almost everybody. Eames WB. (5):464-466
Temporomandibular joint disease
Tired results of oral sleep devices (letter). Lockerman LZ. (1):10; (response to letter). George PT. (1):10, 13
Theophylline
Dental drug interactions with the greatest potential for serious adverse effects. Wynn RL. (2):116-117
Third party payment
Far-fetched advice (letter). Feldman MC. (1):20-22
Follow-up on medical insurance billing (letter). Mack A. (2):112
More harm than good (letter). Perno JL. (1):19-20
Quality service is the bottom line (letter). Thorpe JD. (1):21
Setting the record straight (letter). Weisenfeld MD. (1):22
The underside of medical insurance billing. Chiodo GT, Tolle SW. (1):19-23
Tobacco
Tobacco use strikes out (letter). Mecklenburg R. (1):14
Tooth bleaching
Bleaching with 10 percent carbamide peroxide: an 18-month study. Small BW. (2):142-146
Tooth erosion
Microleakage of incremental versus compression matrix bulk filling of cervical resin composite restorations. Mangum FI, Jr., et al. (4):304-308
Tooth erosion: an unusual case. Filler SJ, Lazarchik DA. (6):568-569
Tooth fusion
Bilateral macrodontia. Damm DD, Fantasia JE. (1):30, 93
Tooth restoration
Microleakage in heat-treated Class V resin inlays cemented with five cement systems: an in vitro study. Macpherson JR, et al. (4):330-336
Microleakage of incremental versus compression matrix bulk filling of cervical resin composite restorations. Mangum FI, Jr., et al. (4):304-308
Tooth root resorption
Simultaneous apical and cervical idiopathic external root resorption. Mesaros AJ, Jr., Wayman BE. (1):70-73
Tooth shade
Bleaching with 10 percent carbamide peroxide: an 18-month study. Small BW. (2):142-146
Tooth-shade shift after rubber dam isolation. Passon C, Lambert R. (2):148-152
Toothbrushing
Answer to toothbrushing (letter). Li TCT. (4):296
Treament planning
Decision making in dental treatment planning (book review). Hall WB, et al. (6):581

U

Ulcers, aphthous
Clinical effectiveness of lysine in treating recurrent aphthous ulcers and herpes labialis. Wright EF. (1):40-42

V

Verapamil
Drug-induced gingival hyperplasia. Margolin RE, et al. (4):344-345

W

Water
Fluoride concentration in bottled and filtered waters. Tate WH, Chan JT. (4):362-366
Microbial contamination of dental unit waterlines: short- and long-term effects of flushing. Santiago JI, et al. (6):528-535
